

Hanley's

NURSERY

Carbondale, Illinois

New **SUMMER LONG** **Everbearing PEACH**

Just imagine! Now you can pick delicious, sun-ripened Peaches all summer long from a single tree growing in your own back yard! Yes, this sensational new variety ripens its first fruits in July and continues to bear through August and into late September. Just the thing for limited yard space—a Peach orchard in miniature!

SUMMERLONG is a remarkable freestone Peach of excellent quality. Flesh is golden yellow, firm, juicy and rich in delicious flavor. You'll enjoy eating it fresh right off the tree, and in pies, fancy desserts, and for jams, preserves and canning. One or two trees will provide an abundance of fruit for the average family. The tree is very hardy, vigorous and bears young, usually the second year after planting. Order your trees early. **Price: 3 to 4 ft. trees, \$2.95 each; 2 for \$5.75; 5 for \$12.50, Postpaid.**

OTHER
TREES
PAGE 8

MIMOSA TREE

Or Silk Tree. Sometimes called the "sensitive tree." A low-growing tree with pale green, fern-like foliage which closes up, or sleeps at night, reopening each morning. Delicately lacy and very decorative. Feathery, fragrant pink blossoms produced in abundance all summer. Blooms young. Good for shade. Excellent for landscaping. **Price: 4-5 ft. Blooming size, \$1.75 each; 3 or more, \$1.60 each, Postpaid.**

CRIMSON KING MAPLE

By far the best red Maple grown. In spring the foliage is a rich, deep purple-red which is carried through the entire summer. Unquestionably, Crimson King is a superb tree for lawn specimens, along driveways and streets. Provides a striking contrast to most all landscapes. Trees are perfectly hardy. Reach a height of 50 feet at maturity. Wonderful ornamental shade tree that will give satisfaction for years. Our heavy-rooted trees will start branching the first year. **Price: 4 to 5 ft. trees, \$4.50 each; 2 for \$8.50; Postpaid.**

Superb Hardy **CRAPE MYRTLE**

The South's most beautiful shrub can now be grown successfully in the North. Our hardy strain will thrive even in extreme northern states, if given the same winter protection as Everblooming Roses. Produces immense clusters of brilliantly colored flowers. Blooms continuously from midsummer until frost. **Select top quality plants, 2 to 3 ft. bushes, 95¢ each. 5 bushes, one of each color, special price, \$4.45; Postpaid. All colors same price. Watermelon Red; Apple Blossom Pink; Snow White; Lilac Purple; Dwarf Lavender-Blue.**

Hanley's Quality Nursery Stock at Low Prices

FREE DELIVERY ON ALL ORDERS

We take pleasure in sending to you our new combination Fall and Spring 1958-59 Catalog. Once again we are offering the **finest quality** nursery stock—at the **lowest prices** possible.

As you read through the succeeding pages, you will find listed many familiar, older varieties of plants which continue to be in demand year after year. You will notice we have also added many of the newest introductions, which have proved their worth after many tests. It is our constant aim to better serve you by offering only the best varieties—those which will prove most beneficial and profitable for you.

ORDER EARLY — FOR FALL or SPRING PLANTING

Fall is an ideal time to plant many nursery items. Evergreens, shrubs, roses and trees planted in the fall, have become well established by spring and are all set to grow—you actually gain several weeks and, in some cases a whole year, by fall planting.

Please place your order as soon as possible after receiving our Catalog. It is to your advantage to order early to be sure of getting the items you want. The stock you order will be reserved for you until the proper planting time in your section. We try to keep informed on weather conditions in every section of the United States during the shipping season. Fall shipments, from October through November. Spring shipments, from February to late May.

Buy by Mail Gain These Advantages

1. Make your selections from the hundreds of items faithfully illustrated and described.
2. Shop in the comfort of your own home—with the entire family sharing in your garden plans.
3. Be confident of getting expertly grown plants and trees, delivered to you in the best condition for transplanting.
4. Be protected from loss by our Written Guarantee.

NOTE—We cannot accept orders for less than \$1.00 or orders not accompanied by a deposit of at least ¼ the amount of the order. We do not ship C.O.D.

HANLEY'S GUARANTEE

No. 1. We guarantee our nursery stock to be true to name, and strive to avoid mistakes. However, if a mistake should occur, we will replace the stock or refund the full purchase price. Beyond that, we cannot be responsible.

No. 2 We guarantee the stock to be first quality and to reach you in good, live growing condition. Examine the items carefully upon arrival and if you are not satisfied, return the unsatisfactory items at once and we will replace them free or return your money.

No. 3 The stock we sell is very carefully handled and under ordinary conditions should grow for you. However, if it does not grow, owing to the weather or other conditions over which we have no control, we will replace it at half price the following season. You are to notify us not later than July, following purchase.

Hanley's policy is a generous one.
We want you to be satisfied.

J. W. HANLEY, PROP.

STATE INSPECTED

No diseased trees, plants or shrubs are shipped from Hanley's Nursery. All the stock we ship has been inspected very thoroughly by authorized Inspectors and their approval will be shown on the copy of our Certificate, signed by our Horticultural Inspection Supervisor. Every package is accompanied by our Certificate.

TERMS

If your order amounts to \$5.00 or more and it is not convenient to send full cash now, send one-fourth cash with order and balance 10 days before shipment. Postage, express or freight will be prepaid on all orders. We do not handle C.O.D. orders.

ASPARAGUS and RHUBARB

FRESH FROM YOUR OWN GARDEN

New PARADISE Asparagus

The New Giant Strain of Asparagus. It will produce a crop one or two years sooner than will any other known variety today. Producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last from 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

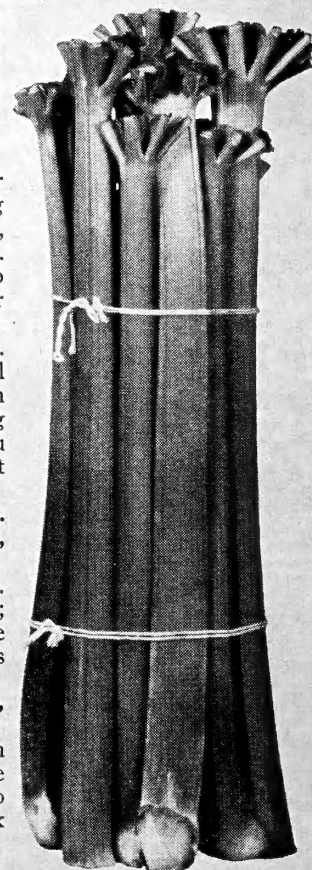

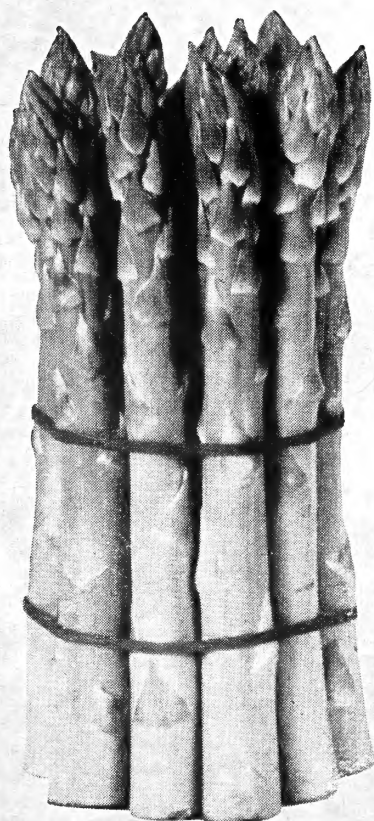

Paradise asparagus offers you a great opportunity to make money. These fine large-rooted plants, produced from expensive pedigreed seed, enables you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care.

PRICES: Giant 3 Year Old Paradise Plants That Will Produce Early.
12 for \$1.50; 25 for \$2.75; 50 for \$4.45; 100 for \$6.25; 1000 for \$35.00, postpaid.

MCDONALD RHUBARB—A fine Rhubarb, Bright Cherry Red Color. Very long stems. Tremendously productive. Tender, rich spicy flavor; do not peel. McDonald is so tender peeling is not necessary. The huge bright red stems get 2 feet long and 1½ inches thick. It attracts special attention on the market.

Strong Divisions Ready to Bear. Each 65¢; 3 for \$1.65; 10 for \$5.00, postpaid.

CANADA RED RHUBARB—A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it cannot be grown from seed. Each 75¢; 3 for \$1.85; 10 for \$5.50, postpaid.

Free! GIFTS for EARLY ORDERS

This Offer Good On All Orders Postmarked Before March 1st

It is to your advantage, as well as ours, to order early. As an added inducement, we offer the following premiums for orders postmarked before March 1st:

With every order of \$5.00 or more, you may select one of the premiums listed. With order of \$10.00 or more, select two premiums. Each additional \$5.00 entitles you to one more premium.

Full payment must accompany the order to be eligible.

The premium you select must be specified on your order, or none can be sent even if you notify us later.

25 Robinson Strawberry plants	1.20

Important: If we run short of some items, we reserve the right to send another premium of equal or greater value.

Sunburst Locust

Sunburst Locust Lovely Lawn Tree of Distinction

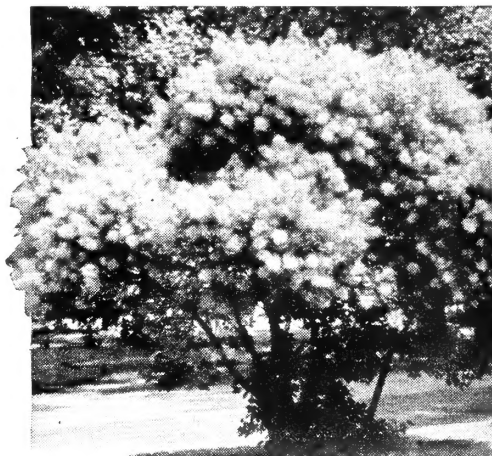

Be first in your neighborhood to have this newest of shade trees! Sunburst Locust is something entirely different—the outer 8 to 10 inches of the branch tips are covered with the brightest golden-bronze foliage we have ever seen on any tree. Extremely beautiful planted as a specimen in garden or lawn. More disease-resistant than common Locust. Will thrive in a wide range of soil and climate. Grows 25 to 35 feet tall; symmetrical and broadly pyramidal; excellent branching habits. Supply is limited—order early. **Price:** 3-4 ft. trees \$5.75 each; 2 for \$10.50. Postpaid.

EVERBEARING FIG

Have delicious, sweet, juicy Figs from your own garden. Our Everbearing Fig is well adapted to growing in the North. May be grown in the field, the garden or in tubs. Plants bear the first year they are set out. Fruit is good size, firm and meaty. Excellent for preserves, canning, drying and eating fresh. For extreme northern areas, indoor culture is recommended. When grown in pots or tubs, makes a beautiful ornamental for terrace or patio—plus an abundance of tasty fruit. **Price:** 2-3 ft. trees, \$1.45 each; 3 for \$3.75; Ppd.

Everbearing Fig

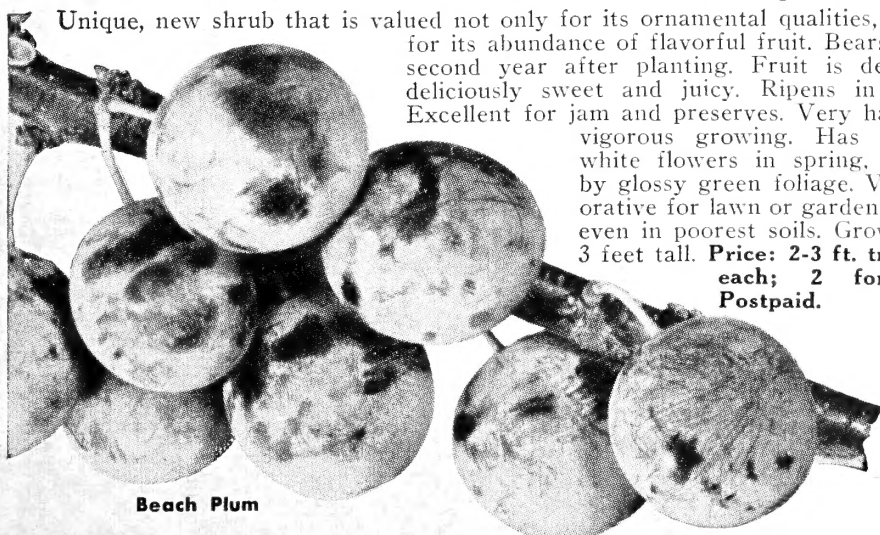

PURPLE FRINGE SMOKE TREE

This different, but striking and graceful shrub was brought to the United States from the southern part of Europe. It is perfectly hardy and easily grown. Planted as a single specimen on the lawn, in a corner of the yard or alongside the house, where it can be seen to advantage, it always excites comment. In late summer and fall it is completely covered with a curious fringe of purplish, misty-looking flowers which gives the bush a smoky appearance. Grows 10 to 12 feet tall and makes a splendid background plant for the shrub border. The flowers are long lasting and provide a spectacular display of color wherever grown. **Price:** Extra strong, 3-4 ft. trees, \$1.95 each; 2 for \$3.75; Postpaid.

Delicious Beach Plum

Beautiful Ornamental Shrub—Bears Tasty Fruit

Unique, new shrub that is valued not only for its ornamental qualities, but also for its abundance of flavorful fruit. Bears first or second year after planting. Fruit is deep blue, deliciously sweet and juicy. Ripens in August. Excellent for jam and preserves. Very hardy and vigorous growing. Has beautiful white flowers in spring, followed by glossy green foliage. Very decorative for lawn or garden. Thrives even in poorest soils. Grows about 3 feet tall. **Price:** 2-3 ft. tree, \$1.85 each; 2 for \$3.50; Postpaid.

Beach Plum

ECONOMY**

Hanley's Flowering Shrubs

FORSYTHIA LYWOOD GOLD

We are pleased to offer this beautiful new Forsythia, which originated in Ireland and was recently introduced in this country. An improvement over older varieties, it not only blooms more profusely but individual flowers are better and fuller in form. The branches are erect and in early spring are solidly covered from top to bottom with golden yellow flowers. Grows to a height of 5 to 7 feet and is perfect for shrub border, foundation planting or single lawn specimen. **Price: \$1.10 each; 3 for \$3.00; Postpaid.**

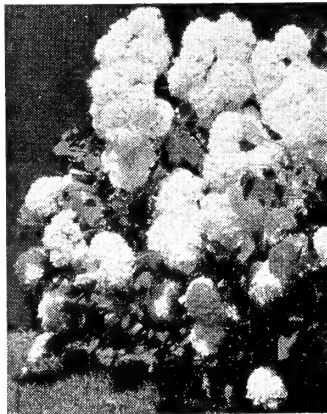

DOUBLE MOCK ORANGE

(*Philadelphus virginialis*) Beautiful, double, waxy white flowers are produced continuously from early spring until fall. Semi-dwarf, neat growing shrub. Produces the largest and most sweetly fragrant flowers of any known variety. One of the most popular and easiest to grow. Valuable for background planting. **Price: 95¢ each; 3 for \$2.50; Postpaid.**

RED JAPONICA

(*Cydonia rubra*). A first choice for rich, happy spring color! Masses of semi-double, brilliant scarlet flowers cover the plant before the attractive, shiny green leaves appear. Fragrant, quince-shaped fruit makes excellent jelly and marmalade, and adds to the attractiveness of this desirable shrub. Grows 3 to 5 feet tall. **Price: 95¢ each; 3 for \$2.50; Postpaid.**

Hills of Snow HYDRANGEA

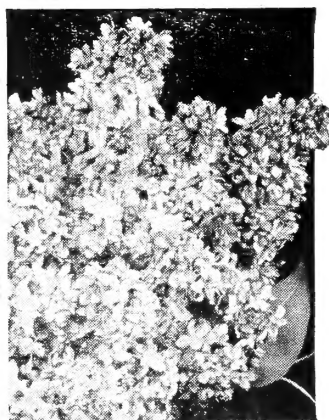

Continuously in bloom from early summer until frost. Bears great clusters of hardy white flowers. Does well in shade, making it valuable for under trees and north side of house. Grows 5 to 6 feet tall. Hardy anywhere. Has attractive, broad foliage. **Price: 95¢ each; 3 for \$2.50; Postpaid.**

RED WEIGELA

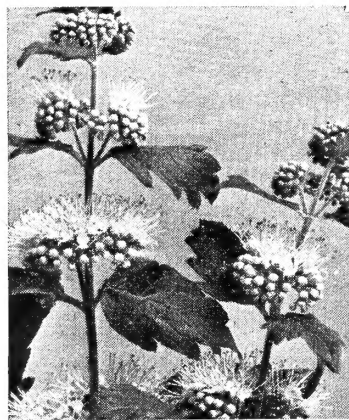

(*Weigela Eva Rathke*). A really outstanding Weigela that will bloom this season. During May and June every branch is covered from top to bottom with hundreds of lovely ruby-red, trumpet-shaped flowers. Makes a thrifty perfectly formed specimen shrub with dark green foliage. Very hardy; will grow in sun or partial shade. A "must" for every landscape. **Price: 95¢ each; 3 for \$2.50; Postpaid.**

**ALL SHRUBS ON THIS
PAGE ARE HEAVY 2-
YEAR BLOOMING SIZE**

PERSIAN LILAC

Large clusters of sweetly fragrant flowers are borne on gracefully arching branches. A more profuse bloomer than the common variety. Can be used to advantage in groups, foundation planting or in foreground of shrub border. Compact, rapid growing. **Price: 95¢ each; 3 for \$2.50; Postpaid.**

SPIREA BLUE MIST

(*Caryopteris*). New, hardy variety that bears a profusion of misty blue flowers from summer until frost. The flowers are beautiful, long-lasting and excellent in arrangements. Easy to grow. About 18 inches tall. Lovely in flower or shrub border. **Price 95¢ each; 3 for \$2.50; Postpaid.**

Pink Flowering ALMOND

Beautiful, double, roselike pink flowers are thickly clustered along the branches in early spring. Very ornamental and popular. Grows 3 feet tall; in full sun or partial shade. **Price: 95¢ each; 3 for \$2.50; Postpaid.**

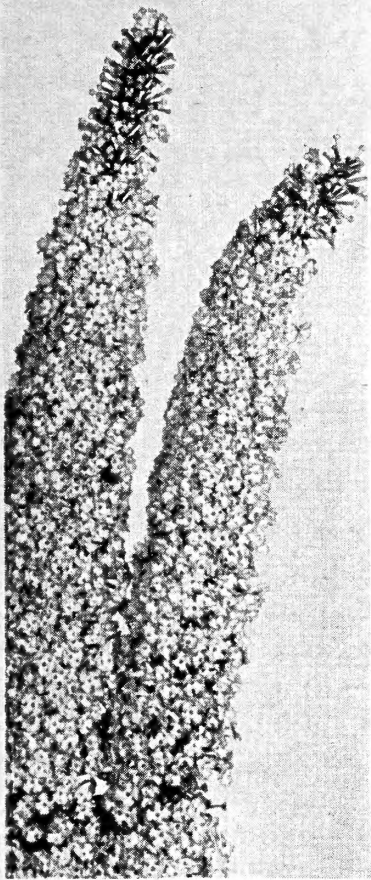

SPIREA VAN HOUTTEI

(*Bridalwreath*). The famous, all-purpose, hardy shrub. Bears large clusters of dainty white flowers. Most widely planted of all shrubs. Grows 8-10 feet tall. Ideal for screening hedge, border or foundation. **Price: 45¢ each; 6 for \$2.10; 12 for \$3.60; Postpaid.**

HARDY FLOWERING SHRUBS

BUTTERFLY BUSH — Summer Lilacs

Buddleia

New Buddleias—each the finest of its color. All bloom profusely and continuously from early summer until frost. Make a compact bush about 4 feet tall. The long flower trusses, 12 to 18 inches, make a wonderful display of color in the border and are splendid for arrangements. Very hardy; easy to grow; require little care. The tops die down in winter, then come up even more vigorously in spring. These are all blooming size plants.

ROYAL RED. Bright, glowing ruby-red. Best red of all. Makes a very brilliant display.

EMPIRE BLUE. Charming, aster-blue with a delicate lilac tone. Beautiful against silvery-green foliage.

PINK DAWN. Rose pink flowers. It's exquisite by itself—or combined with the other colors!

SNOWBANK. Glistening white sprays, 12 to 15 inches long; contrasts with rich dark green foliage.

Price: 95¢ each; 3 for \$2.50; Postpaid.

1 EACH OF THE ABOVE FOUR COLORS FOR ONLY \$3.35 Postpaid.

"TRUE-RED" BARBERRY

There is nothing so strikingly brilliant in hardy shrubs as our genuine "True-Red" strain of Red-Leaf Barberry. Its abundance of thick, purplish maroon leaves glisten in the sun, contrasting with the green and yellow of other

plants. Valuable for single specimens, groups or borders. For a beautiful, dense hedge it is unequalled. Price: 95¢ each; 3 for \$2.50; 12 for \$8.35; Postpaid.

BLUE HYDRANGEA

A queen among flowering shrubs. In acid soil, or if fertilized with small amounts of aluminum sulphate during the growing season, it will produce tremendous blue flower heads. In alkaline soil the flowers will be a very attractive pink. Properly dried, they make lovely winter bouquets. Foliage is luxuriant, bright green. Outstanding wherever grown. Grows 2 to 4 feet tall. Price: \$1.50 each; 3 for \$3.95; Postpaid.

SPIREA ANTHONY WATERER

Highly valued for its dwarf growing habit. Unexcelled for borders, under windows and wherever low growth and bright color is needed. Very dense growth with large clusters of pink-red flowers from early summer to frost. Ultimate height, 24 inches. Hardy; thrives in sun or partial shade and in most any soil. Excellent also for a low, bushy hedge. Price: 95¢ each; 3 for \$2.50; Postpaid.

Spiraea Anthony Waterer

Barberry >

MULTIFLORA ROSE

Amazing New Living Fence

Millions planted annually by U. S. Soil Conservation Service, State Game Commissions, hunt clubs, and farmers all over the country. Makes excellent game cover and provides winter food for song and game birds.

Attractive plants grow 6 to 8 feet tall and nearly as wide. Sprays of white flowers with yellow stamens cover the plant in June. Many farmers are using as permanent fences at one-third the cost of woven wire. So bushy and thorny it furnishes a stock-tight, human-tight fence which beautifies the surroundings and tends to keep down weeds. A good snow barrier, windbreak and soil erosion control, too. Does not rob the soil beyond its own branch spread. Plant 1 foot apart for fence; 3 to 5 feet apart for game cover and naturalizing.

No. 1 Standard Grade 15-18 inches — Postpaid Prices:

Brilliant, Hardy KURUME AZALEAS

HUNDREDS OF BLOOMS THE FIRST YEAR

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are comparatively easy to grow and make such a brilliant display each year that the demand is constantly growing. These selected varieties are noted for their heavy flowering habits and hardiness. In the spring the plants will be covered with beautiful flowers. A never to be forgotten riot of color. Evergreen for winter color.

BOUQUET ROSE. Rose-pink. Large delicate rose-pink flowers in late May or early June. Strong compact grower.

HINODEGIRI. Brilliant scarlet. This is the most popular of the reds. One of America's most brilliant shrubs. Completely covered with a mass of scarlet blooms in April and May.

SNOW. Large pure white. Without a doubt, the hardiest and most popular white Azalea. A very free flowering variety. Plant is vigorous and compact. Foliage is attractive deep green.

PRICE: \$2.75 each; 3 for \$6.95; Postpaid

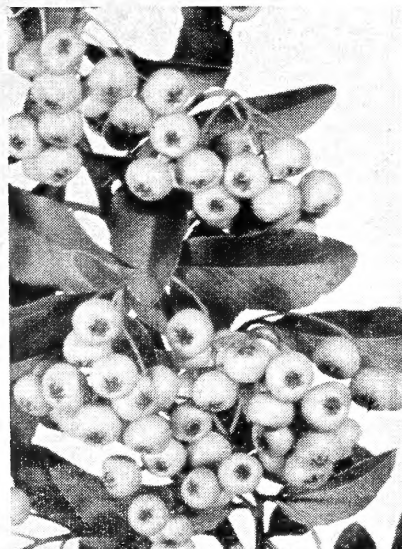

Hardy Broad-Leaf Evergreens

AMERICAN HOLLY

(Ilex Opaca). We are pleased to offer the **new, hardy** Holly which can now be grown successfully in northern states. Withstands sub-zero temperatures. Remains bright and colorful all year. Produces an abundance of brilliant red berries which contrast beautifully with the handsome, oak-like, shiny green leaves. Grows to a height of 25 to 30 feet, but looks best when kept trimmed to 8 to 12 feet. Makes a most impressive lawn specimen; and is valuable in foundation planting for accent and color contrast. Spray with Berry-Set for best fruiting. Price: \$2.25 each; 2 for \$4.25; Postpaid.

FIRETHORN

A truly remarkable evergreen shrub. Bears large clusters of white flowers during late spring, followed by a super-abundance of brilliant orange-scarlet berries, which remain on the plant into late winter. Does especially well in a foundation planting. The long shoots can be trained to a trellis or over a doorway. Thrives best in a warm, well-drained location. Also makes a very colorful, **evergreen** hedge. Give your home grounds year 'round beauty by planting some of the broad-leaf Evergreens. Price: \$1.95 each; 2 for \$3.75; Postpaid.

Firethorn

American Holly

Sturdy BABY EVERGREENS

Save Money By Growing Your Own Specimens

Offered for the first time at unbelievably low prices! Grow them in your garden for 2 or 3 years before transplanting to permanent landscape location. In a few years they will be worth many times what you paid for them. Evergreens are invaluable for all landscape work; for hedges and screens; windbreaks; and to control soil erosion. Save—by planting these sturdy, well-rooted Evergreens now.

COLORADO SPRUCE. Beautiful blue-green foliage; pyramidal form.

IRISH JUNIPER. Tall, erect, columnar in form. Fine dense needles.

PFITZER'S JUNIPER. Low, spreading type. Feathery green foliage.

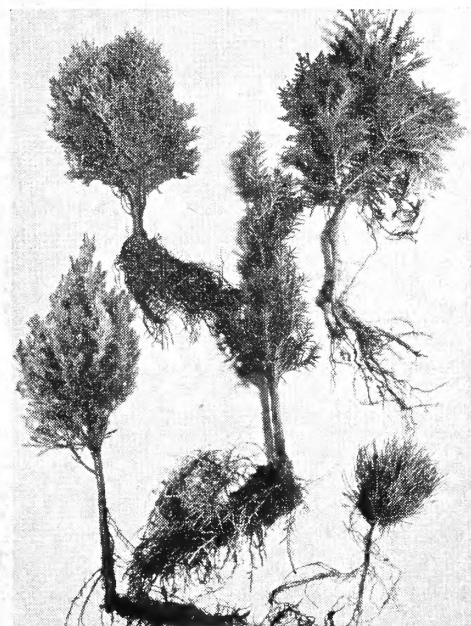

SPINY GREEK JUNIPER. Medium tall; conical form. Dense foliage.

SPREADING YEW. Low, bushy form. Glossy, dark green foliage.

UPRIGHT YEW. Tall, columnar type. Very compact foliage.

Prices of above Evergreens

Heavy 6 to 8 in. size: 3 for \$2.25; 10 for \$5.95; 50 for \$25.95; 100 for \$48.75; Postpaid.

Colorful ORNAMENTAL TREES

HARDY TULIP MAGNOLIA

Among the finest of all ornamental trees are these hardy Magnolias. Large bell-shaped red blooms measuring 5 to 7 inches across. Beautiful waxy sheen on large bright green foliage. Trees begin blooming when quite small, usually the first year after transplanting. Eventually attain a height of 10 to 12 feet. Fairly fast growing. Fertilizing annually promotes good growth. **PRICES: 3-4 ft. \$3.00 each; 2 for \$5.75; Postpaid.**

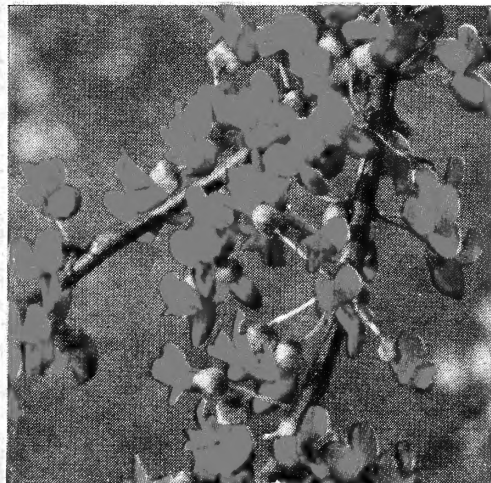

WHITE DOGWOOD

Here is one of the most beautiful of all our native trees. Large, white flowers of distinctive form are produced in clusters before the leaves appear in early spring. Throughout autumn an abundance of bright red berries and brilliantly colored foliage prolong the attractiveness of this valuable tree. Plant along driveway or property line, in groups or on lawn; it will enrich any setting. **Price: 3-4 ft., \$2.25 each; 2 for \$4.25; Postpaid.**

NATIVE REDBUD OR JUDAS TREE

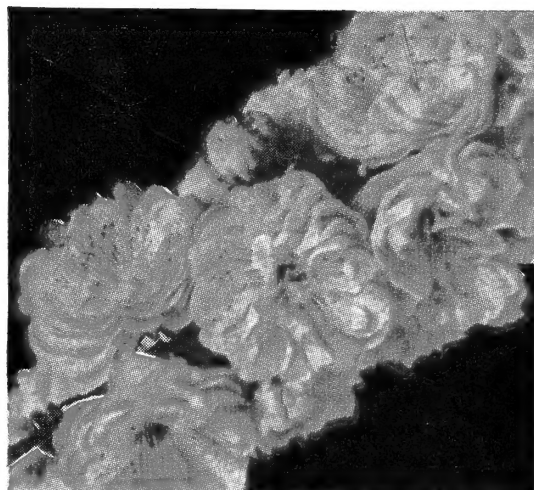

A small tree of refined type. Most desirable for planting in lawn or borders. The tree is a mass of bright red in early spring before the leaves appear. One of the handsomest of the low growing, flat-topped trees. Grows about 15 feet tall. In bloom, the wide spreading branches are literally smothered by hundreds of rosy-lavender blossoms, making it appear as a small pink cloud. Due to extreme hardness of wood, the tree is usually late leafing out. **Price: 4-5 ft. trees, \$1.95 each; 2 for \$3.75; Postpaid.**

Redbud or Judas Tree

ROSE TREE OF CHINA

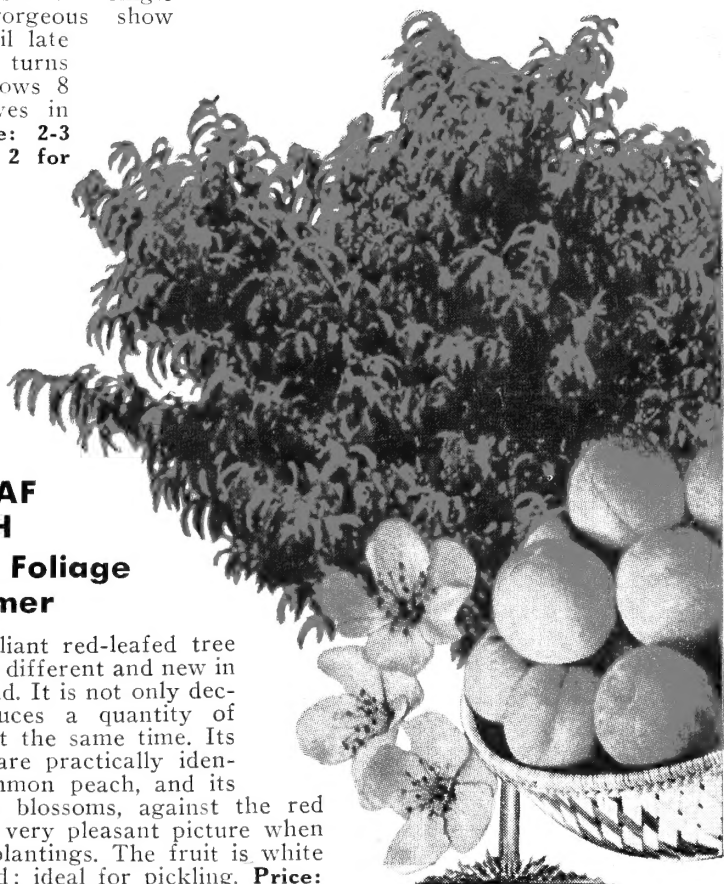

(Prunus Triloba). One of the most beautiful and showy of all small trees. In early spring, before the leaves appear, every branch is covered with very double rose-like, pink flowers. Grows to a height of 6 feet, is very graceful and symmetrical. Hardy and easy to grow. It's lovely as a lawn specimen, and makes a beautiful addition to shrub border or foundation planting. **Price: 3-4 ft. \$2.25 each; 2 for \$4.25; Postpaid.**

Rose Tree of China

RED FLOWERING CHEROKEE ← CHIEF

The exciting new Red Flowering Dogwood everyone is talking about! Truly a vision of loveliness in spring when the branches are heavily laden with exquisite rose-red blossoms. A single specimen makes a gorgeous show from early spring until late fall when the foliage turns to rich red tones. Grows 8 to 10 feet tall. Thrives in any fertile soil. **Price: 2-3 ft. trees, \$4.50 each; 2 for \$8.50; Postpaid.**

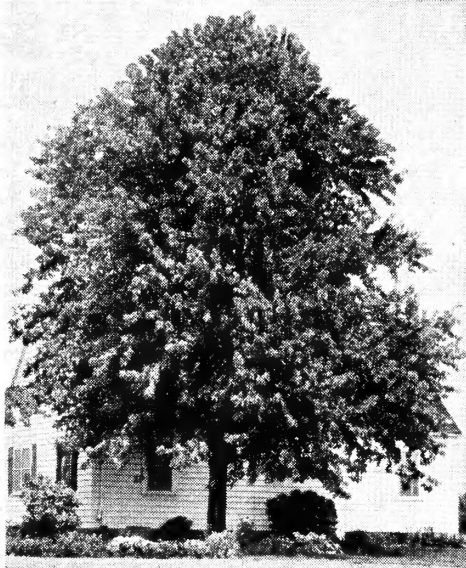

Red Leaf Peach

RED LEAF PEACH

Brilliant Red Foliage All Summer

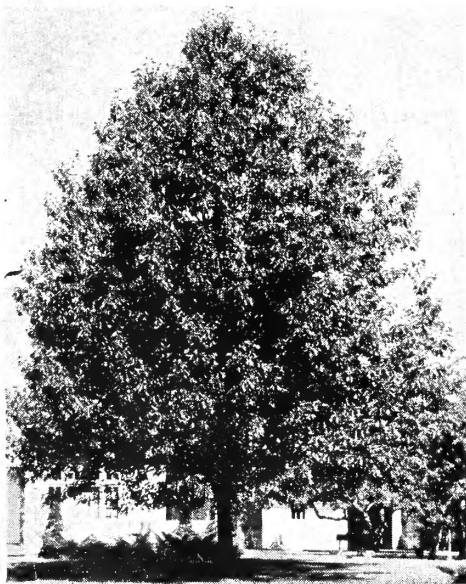

We offer this brilliant red-leaved tree as something quite different and new in the ornamental field. It is not only decorative, but produces a quantity of worthwhile fruit at the same time. Its habits of growth are practically identical with the common peach, and its deep rose colored blossoms, against the red foliage, produce a very pleasant picture when set among other plantings. The fruit is white and highly flavored; ideal for pickling. **Price: 3 to 4 ft. trees, \$1.65 each; 2 for \$3.25; 5 for \$7.95; Postpaid.**

SILVER MAPLE

(*Acer saccharinum*)

One of our most popular and widely planted trees, for parks, tree lawns or in yards where rapid growth is required. The finely cut green leaves show their silvery sides when turned by breezes. Foliage turns a golden-yellow in the fall. A very hardy long-lived tree, it thrives on all types of soil and under all conditions of weather. Habit of growth is symmetrical and clean; forms a graceful head; grows to 60 feet at maturity. Plant now for a lifetime of beauty and comforting shade. **Price: 5-6 ft. trees, \$1.50 each; 2 for \$2.85; Postpaid.**

PIN OAK

(*Quercus palustris*)

Queen of All Shade Trees. The Pin Oak is one of the fastest growing of the Oak family. For street and lawn planting, it has no equal. The foliage is rich green, deeply cut and colors to a glossy copper late in fall. It is not generally bothered by insects or disease, and adapts itself to all locations. Grows 30 to 40 feet tall, in a symmetrical, pyramidal form. **Price: 5-6 ft. trees, \$3.00 each; 2 for \$5.75; Postpaid.**

CUTLEAF WEeping BIRCH

(*Betula pendula laciniata*)

This stately, white trunked, weeping tree has graceful, threadlike branches that weep in long strings to the ground. One of America's most beautiful shade trees, it grows 20 to 30 feet tall. Its bark is gleaming white both summer and winter. One of the few shade trees under which grass will make good growth. A single specimen or group adds distinction to a lawn. The white bark develops a year or two after the tree is planted. **Price: 5-6 ft. trees, \$3.50 each; 2 for \$6.50; Postpaid.**

New HYBRID ELM

The ideal shade tree for that spot where fast growth is necessary. This new Hybrid combines the best qualities of both parents—the good hard wood, long life and disease resistance of the beautiful American Elm, with the extreme rapid growth of the Chinese Elm. It is extra hardy and thrives in most soils and conditions of weather. An excellent tree for new homes where good shade is wanted quickly; for yards, tree lawns or driveways. **Price: 5-6 ft. trees, \$3.75 each; 2 for \$7.25; Postpaid.**

NIOBE GOLDEN WEeping WILLOW

(*Salix*)

Gracefully drooping branches and golden colored bark make this a most attractive tree the year around. An exceptionally strong grower; very hardy. Height at maturity about 55 feet. Long, slender green leaves borne on pendulous branches that sweep gracefully to the ground. Makes a magnificent lawn specimen and is very effective around pools and along river banks. **Price: 5-6 ft. trees, \$1.95 each; 2 for \$3.60; Postpaid.**

SCARLET MAPLE

(*Acer rubrum*)

In the fall this is the most gorgeously colored tree in all America, with its brilliant rosy-scarlet foliage. In spring, the tree is loaded with scarlet flowers, followed by bright red seed. Attractive deep-green foliage is blue-green underneath. Provides good shade yet is not so dense as to prevent grass growth. Reaches 40 to 50 feet at maturity. Valuable for lawn and parkways. **Price: 5-6 ft. trees, \$3.25 each; 2 for \$6.00; Postpaid.**

LOMBARDY POPLAR

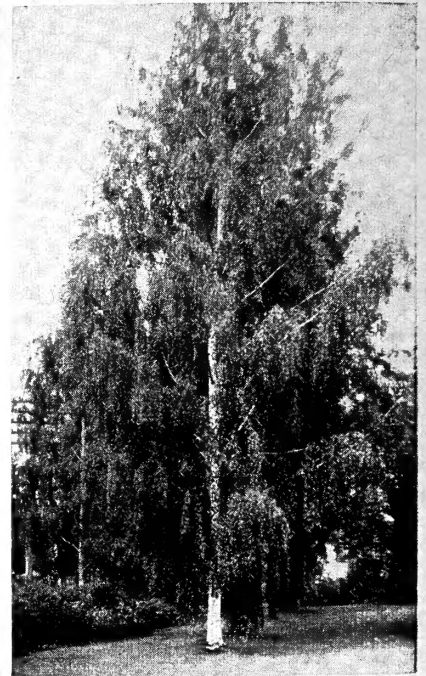

(*Populus nigra italica*)

A beautiful, tall tree of stately, columnar growth. A row of these outlining a driveway or accenting property lines, has a grandeur that is unequalled by any other tree. Reaches a height of 75 feet at maturity; branches from the ground up; has fairly dense, dark green foliage. Grows rapidly and thrives on most any soil. Makes a splendid tall screen, hedge or windbreak — for these purposes, the trees should be planted about six feet apart in the row. **Price: 4-5 ft. trees, 75¢ each; 5 for \$3.25; 10 for \$5.75; Postpaid.**

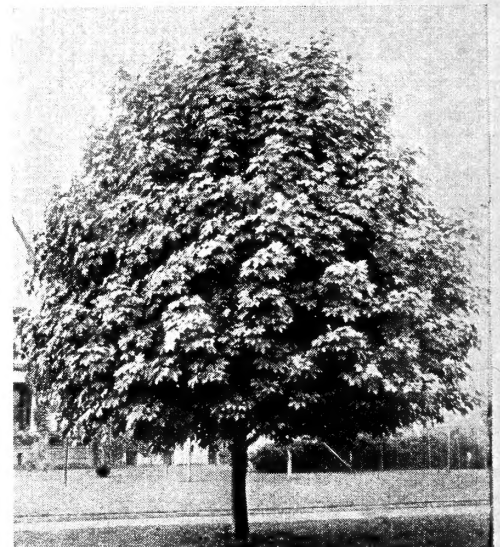

TULIP TREE

(*Liriodendron tulipifera*)

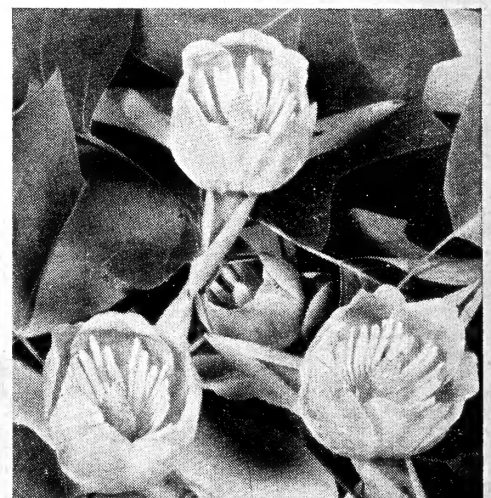

One of the grandest of our native trees. It grows into a tall pyramid with broad, glossy, fiddle-shaped leaves of a clean, bluish-gray shade. Foliage turns bright yellow in fall. Beautiful, orange-yellow, tulip-like flowers, 1½ to 2 inches long, appear magically over the tree in May and June. Provides good shade; grows rapidly. Mature height about 70 feet. **Price: 4-5 ft. trees, \$2.50 each; 2 for \$4.25; Ppd.**

Tulip Tree

Cultivated BLUEBERRIES

Whether you have a small garden or a large acreage, you will want to plant some of these GIANT BLUEBERRIES. They are so easy to grow and require little care, yet reward you with bountiful crops of delicious, nutritious berries. Two to six bushes will supply the average family with enough fruit for every home purpose.

Blueberries require an acid soil, rich in organic matter. If your soil is deficient in acid, we recommend a heavy application of peat moss, decayed sawdust or leaves, or aluminum sulphate. Set plants 3 to 4 feet apart in the row. For proper pollination, plant 2 or more varieties. No order accepted for less than two varieties, unless you state you already have another variety. We believe the following varieties to be the best:

RANCOCAS. Earliest to ripen. Good, very sub-acid flavor.

RUBEL. Late. One of the best. Vigorous; heavy bearer.

STANLEY. Ripens midseason. Large, aromatic, delicious berries.

JERSEY. Midseason. Excellent quality and production.

GRAPE VINES

INTERLAKEN SEEDLESS GRAPE

An outstanding new variety, originated at the Agricultural Experiment Station at Geneva, New York. Produces delicious, golden yellow fruits that can be eaten whole like California Grapes. Flesh is meaty, very sweet, solid and crisp. Ripens about a month before Concord. A strong growing variety that bears young; yields heavily and regularly. Clusters are of medium size, but compact and full. Wonderful flavor for every home use. Plant some this spring. They're easily grown—in field or garden, on a trellis, along a fence, on an arbor. **PRICE: 2 yr. old, \$1.45 each; 3 for \$3.75; 10 for \$12.00, Postpaid.**

RED GRAPE

CARDINAL CATAWBA. A beautiful flashing red Grape. Giant in size; almost seedless. Extremely delicious and an excellent producer. All you could wish for in a large Red Grape!

WHITE GRAPE

PORTLAND. New super-fine variety. Ripens earlier than any known White Grape. Berries are so sweet they can be eaten before ripe. Heavy producer. Very satisfactory for all sections.

BLACK GRAPES

FREDONIA. A new variety that is rapidly becoming the leading Black Grape. Ripens extra early. Produces huge, compact bunches; berries are large, have excellent quality and flavor. Keep well. Big producer.

CONCORD. The leading commercial Grape. Blue-black color, rich flavor. Much in demand for market and winery. Bunches and berries are large. Good shipper. Regular and heavy bearer. Succeeds over a large area.

ROBINSON

The long-time favorite variety, famous for its size—30 berries will fill a quart box! Very attractive, well-shaped berries; color is rich cardinal-red. Delicious flavor—honey sweet! Ripens a few days after Premier. Excellent for canning and freezing. Very hardy and prolific. Makes a good fruiting row on any soil. Heavy bearer even under adverse weather conditions. One of the best midseason bearers for home gardens and commercial planting.

PREMIER

An outstanding extra-early Strawberry that has stood the test of time—and is still the leading variety with growers everywhere. The berries are large, of uniform shape and size, excellent quality, rich color and delicious flavor. Superior for fancy desserts and canning. The plants are self-pollenizing and highly resistant to frost and drought. Vigorous, strong growers, producing an abundance of fruit all season. All these qualities make Premier a profitable market variety.

CATSKILL

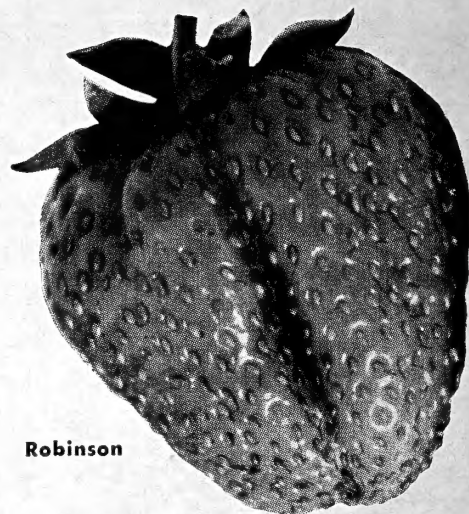

Generally recognized as one of the best midseason to late varieties. Large quantities of huge, bright red berries every year on this "sure cropper." Hardy plants which very rarely freeze; are thrifty, vigorous growers. Berries are firm, solid and well colored all through, with delicious flavor. Good freezing and canning berry, and for fancy desserts.

TENNESSEE BEAUTY

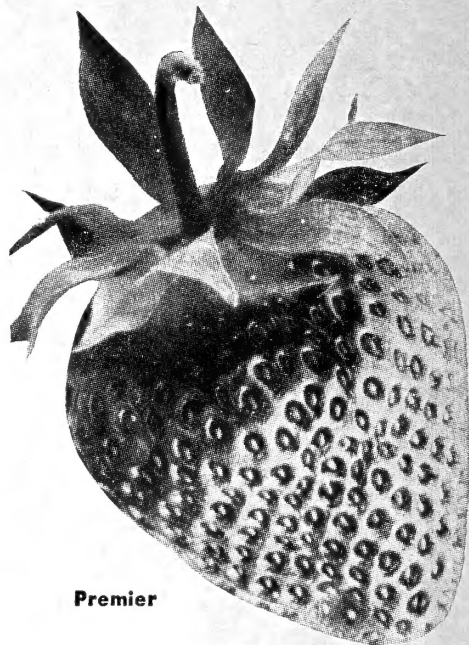

We have tested this new variety and like it very much. Ripens midseason. The berries are large, bright red, firm and high quality. A fine, all-purpose berry; use it fresh, for canning, freezing or preserving, and it will more than please you. Any way you use it, the fine flavor, rich color and firmness are retained. Plants are self-pollenizing, thrifty and vigorous growers. Well worth a trial this spring.

POCAHONTAS

A recent introduction of the U. S. Department of Agriculture, this new variety is gaining wide popularity with growers everywhere. The plant is exceptionally vigorous and productive. The berries ripen a week later than Premier, are large and a glossy, vivid red. Have a good tart flavor and firmness which make them ideal for freezing and processing. Home gardeners and commercial growers alike, can profit by planting Pocahontas. Order your plants early—while the supply lasts.

Robinson

Premier

SENATOR DUNLAP

New varieties come and go—but this old standby, after half-a-century, is still going strong! It never fails to produce a good crop, and is grown all over the country with equal success. Well known for its wonderfully good berries; large in size, glossy red color and rich sweet flavor. If you've never grown Strawberries before, you'll want to try Senator Dunlap.

BLAKEMORE

Extra Early. Favored for large-scale planting and long-distance shipping. Plants are strong growers, withstand adverse weather conditions, and always produce a large, profitable crop. Self-pollenizing. Berries are bright red and have extra-firm quality; good for shipping and processing. Large size and good flavor make it a popular market berry, as well.

EVERBEARING STRAWBERRIES

New RED RICH

Up to a Quart of Berries per Plant Plant Pat. No. 993

Redder, sweeter, hardier, healthier and more productive than any other everbearing Strawberry! Red Rich has been a sensational success—acclaimed the greatest development in fifty years. It was produced after fifteen years of cross-breeding with Fairfax and Wayzata—one famous for flavor, the other for everbearing qualities.

A perfect berry for freezing—it thaws without loss of firmness, flavor or natural sugars. Keeps and ships well too. Berries are big, luscious and rich red clear through.

PRICES

\$2.95	\$5.00	\$8.50	\$15.00	\$32.50

GEM

The variety which has made everbearing strawberries so popular. We like it even better now because experience has proven that it withstands adverse conditions and is so extremely productive. The berries are large, firm, bright red and good quality. Especially fine for canning and preserves as berries hold their shape and color. Excellent freezer. Will bear this summer and fall right up to freezing. It is astonishing how many quarts of berries you will get. Next year they will bear spring, summer, and fall. Self-pollenizing.

For Assured Gardening Success See Enclosed Sheet of GARDENING AIDS

We call your attention to the enclosed list of Gardening Aids. Recommended for use at time of planting and during the growing season. To give plants a better start—Promote faster, more vigorous growth—Assure larger yields and more uniform production.

BERRY-SET

for Bigger Finer Berries

New Hormone chemical that really works wonders on Strawberries, Raspberries and Blackberries. The fruit develops larger and meatier and it also encourages bigger crops over a longer season. Just mix powder with water and

spray the open blossoms, with any ordinary sprayer. It is perfectly safe to spray the whole plant. 1-oz., package makes 4 gallons.

Price: 1 oz., 50¢; 3 ozs., \$1.00, postpaid.

WHEN ORDERING ALWAYS ADD

RA-PID-GRO

For Assured Life — Faster Growth — Better Production

RA-PID-GRO is a highly concentrated, secret formula, complete plant food which is mixed with water to make it immediately available to the plant.

In transplanting, simply put four teaspoons of RA-PID-GRO in one gallon of water. Soak the roots of plants as follows: Roses and shrubs, 3 minutes; Trees, 4 minutes; Raspberries, Blackberries, Boysenberries and Grapes, 1 minute; Strawberries, a second or two. Plant immediately after removing from the dip. This will cause the plants to develop better root systems much faster.

After planting, pour the remaining solution around the newly-planted stock. Use RA-PID-GRO every two or three weeks through the growing season, according to the instructions on the package, to make your planting the pride of the neighborhood. All the vital elements necessary for strong growth and good production are present in RA-PID-GRO, and are readily available to the plant.

One pound of RA-PID-GRO makes 22 gallons, the equivalent of 100 lbs., of dry fertilizer, and it is much more effective.

BIG, STURDY, READY-TO-BEAR RASPBERRIES

PAY BIG PROFITS—Easy to grow, require but little attention, should be in home garden, full instruction will be with shipment. If you plant strong ready-to-bear plants and follow our simple instructions, your success is assured. We offer only varieties which are guaranteed to succeed.

BLACK RASPBERRIES

BLACKHAWK. New and outstanding in every way! Originated at Iowa State College and introduced in 1955, Blackhawk is surpassing all other varieties in production—as many as 5000 pints per acre, and size of berry—which often measures $\frac{3}{4}$ -inch in diameter. Rich flavor, firmness and glossy black color are other plus qualities that make this variety profitable for commercial planting and small gardens. Plants are strong, vigorous growers.

New GIANT BRISTOL. Excellent, new midseason variety. Thrives in most any well-drained soil; withstands driest seasons; does well even in the South. Produces enormous crops of jet black, almost seedless berries. Attractive, highly flavored, firm berries that are much in demand for eating fresh, preserving and freezing. A big money maker as a market berry.

CUMBERLAND. The old reliable standard black Raspberry. Thrives everywhere and is grown extensively in all sections. Unusually large, firm, jet black berries, with mighty good flavor; popular for every home use and for market. Strong, vigorous growing plants that will produce bountiful crops every year.

PURPLE RASPBERRIES

SODUS PURPLE: A cross between a Red and a Black Raspberry! If you're not yet growing Sodus, don't let another year slip by without planting some. Their delicious, zestful flavor is distinctly different and offers a real flavor thrill! The huge, firm berries of a wine-red purple color are unequaled for jams and jellies. The husky plants are heavy producers; easy to grow.

RED RASPBERRIES

INDIAN SUMMER. Sensational Everbearer. This excellent berry has much to offer over most other varieties, both for home use and commercial production. It has an earlier season of ripening. Tremendous volume of production with two crops, first in spring and then repeating in the fall. It is hardier, even thriving in Canada and does well in the South. Plant is long-lived, disease resistant. Should be in every garden!

New SEPTEMBER. Everbearer. A grand new variety. Produces a full crop of berries in the spring and another large crop during September. The berries are large and of excellent quality; keep well on the bush and after picking. The fall crop ripens somewhat earlier than other late varieties, thus avoiding failure due to frosts. Recommended for both home gardens and commercial planting.

GIANT LATHAM. Berries are large, many an inch long, bright deep red and firm. Pick easily and ship well. The flavor is superb; perfect for fresh desserts and canning, freezing, preserving. Extra hardy. Bears large crops and is a real money maker. Commercial producers report profits often run as high as \$400 to \$800 per acre in a single year.

NEW EVERBEARING BLACKBERRY DESOTO

Ripe Berries All Summer and Fall

Our big, thrifty, vigorous-growing plants will bear and bear all through summer months, from July to the first frost. The berries are enormous in size, often measuring two inches long. Glistening jet-black in color; they have a fine spicy, yet honey-sweet, flavor. Very few small seeds and no core.

BEARS YOUNG

Our big DESOTO plants will bear early after transplanting and continue to bear all summer and fall. They are easy to grow and will thrive in any type of soil. Plant a few DESOTOS in your yard this spring, or along the fence. You can serve the huge sweet berries to your friends all summer and still have enough for canning or freezing for a full winter's supply.

DESOTOS are equally good eaten fresh, frozen or canned and they make the best jelly you have ever eaten. Order early, our supply is limited.

Prices: 50¢ each; 3 for \$1.40; 6 for \$2.52; 12 for \$4.00; 25 or more, 30¢ each, Postpaid.

Use RA-PID-GRO When Transplanting Berries Because

The plants will develop better root systems much faster. All the vital elements necessary for strong growth and good production are present in RA-PID-GRO. When transplanting Berries, use four teaspoons of RA-PID-GRO in one gallon of water; soak plant roots for 1 minute. See page 15 for further details and prices.

"2 or More 10 Quart Buckets Full Every Other Day"

Carbondale, Illinois.

DeSoto, Illinois.

Dear Sirs:

Enclosed is an actual photograph showing an every other day's picking of your wonderful DeSoto Everbearing Blackberries from one row along my garden fence.

We keep them cut back to a height of not over four feet, causing them to spread into a table shape. We pick 2 or more 10 quart buckets full of berries every other day for about 74 days and seldom get a scratch.

The huge, sweet, juicy berries are very delicious when used fresh on the table, requiring but little sugar to sweeten them. They make highly colored, splendid tasting jellies and jams that retain their fresh fruit flavor. Also make the best cobbles and pies you ever tasted in your life.

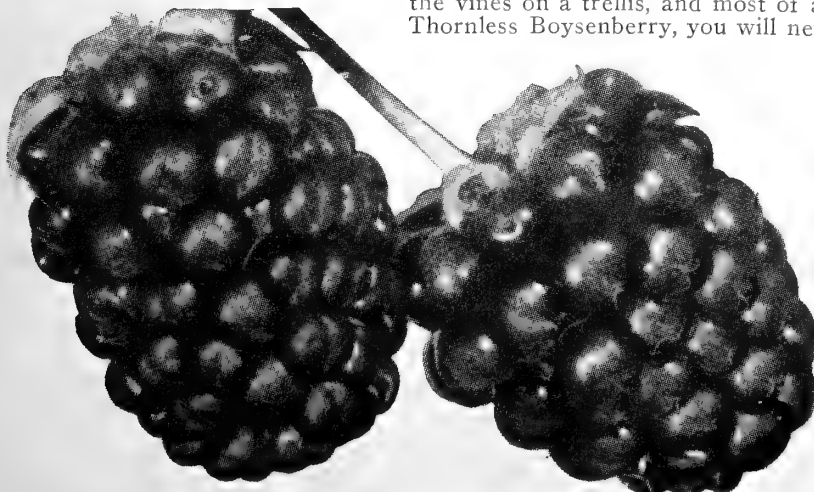

We are very proud of our DeSoto Everblooming Blackberries and would not hesitate to recommend them to any of your customers, in fact, we consider the DeSoto Everbearing Blackberry the most profitable berry any one can grow. They require but little attention, are exceedingly productive, as well as extremely hardy, and we believe that with the proper cultivation and pruning, they will prove to be just as successful for all of your other customers as they have for us.

Yours very truly,

Mr. and Mrs. C. E. Woolf.

NEW THORNLESS BOYSENBERRY

This sensational new Boysenberry is **absolutely free from thorns**. SMOOTH AS A GRAPE-VINE, can be handled with bare hands. This is a great advantage in cultivation and in placing the vines on a trellis, and most of all, in picking the huge, delicious fruit. Once you grow the Thornless Boysenberry, you will never plant any other kind.

Thornless Boysenberry

The Boysenberry is a cross between the Loganberry, red raspberry and blackberry. Think of a berry that has a little of each of these fruits in one gigantic, nearly seedless, beautiful wine-colored berry, with a very distinctive delicious flavor that you will never forget. They are sugary-sweet and juicy, yet firm enough to stand handling. No berry will compare with its delicious, enticing flavor when made into sparkling jelly, jam, marmalade or canned. For pies it cannot be excelled. Its beautiful sparkling juice may be made into a most delicious drink when mixed with four parts of water.

**ALLSTATE PECAN
IS A
SELF POLLINIZING
VARIETY**

ALLSTATE PECAN

(Hicoria Pecan)

This is a very hardy, large, thin-shell Pecan. This Pecan can be successfully grown over as large a section of the U.S.A. as any other known Pecan. Usually Pecans will grow in soils that will produce good farm crops. They, like any other Pecan, will thrive in low land even though it is sometimes flooded. Trees grow rapidly and usually begin bearing young. Nuts large; kernels crisp, plump and very delicious. The Pecan is a long-lived tree.

STUART PECAN

Hardest of the budded Paper Shell varieties. Can be successfully grown as far North as Southern Illinois. Nuts large, very delicious and of excellent quality. Trees ornamental and of rapid growth. A very profitable variety for Commercial planting. A grand Paper Shell variety for those located South of Central Illinois.

Quality**

Filberts

An attractive, low growing bushy tree, producing an abundant annual crop of delicious nuts, the shape and size illustrated. The tender, sweet, round kernel is very nutritious and often used to replace meat in the diet. Will grow in almost any location and type of soil. Grows 6 to 8 feet tall. **Price: Strong 3-4 ft., bushes, 65¢ each; 3 to 10, 60¢ each; 12 or more, 50¢ each. 100 for \$40.00. Postpaid.**

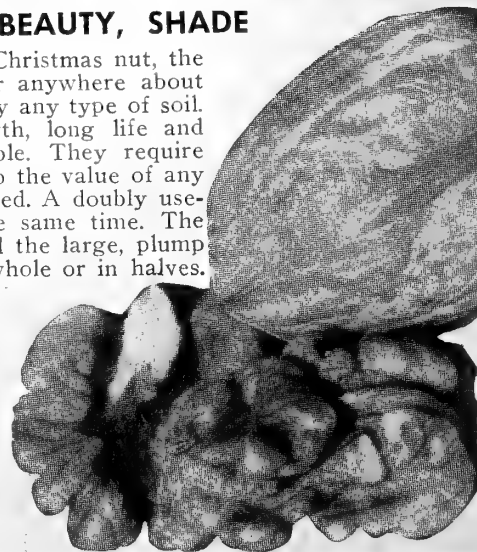

Hardy ENGLISH WALNUT

FOR PROFIT, BEAUTY, SHADE

You can now grow this favorite Christmas nut, the English Walnut, in your yard or anywhere about the place. Will grow on practically any type of soil. Their hardiness and rapid growth, long life and beauty makes them very valuable. They require no special care and add greatly to the value of any property on which they are planted. A doubly useful tree: shade with nuts at the same time. The nuts have an extra thin shell and the large, plump meaty kernels come out easily, whole or in halves. For shade, beauty and profit, they cannot be excelled.

POSTPAID PRICES

2-3 ft.....	\$3.50 each; 3 or more \$3.35 each.
3-4 ft.....	\$4.35 each; 3 or more \$4.20 each.

NUT TREES Are A Permanent Investment

Grafted THOMAS BLACK WALNUT

The much improved Black Walnut variety with softer shell and easy cracking. Meats come out in halves and quarters. Nuts are giant size and very valuable, often bringing \$4.00 or more per bushel; a mature tree will produce 15 to 40 bushels. The tree is beautiful as a specimen, large and well shaped; hardwood to withstand any weather, yet very fast growing. Bears young, often producing fruit the second year after transplanting.

Walnut trees bring a triple return on your investment—providing you with a source of highly nutritious food; bearing large, profitable crops that are readily marketable, and adding value to your property. Plant a tree or two for your own use now, and if you have room, plant some for a profitable crop. These delicious nuts are always in demand by food processors, confectioners and housewives everywhere.

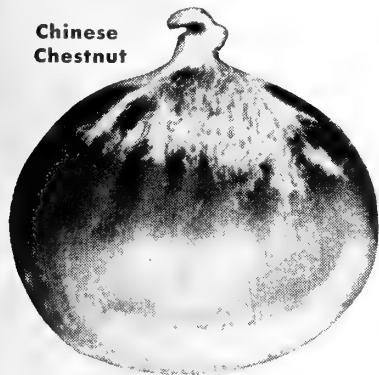

Postpaid 18 to 24 inch trees, \$3.15 each; 3 or more \$2.95 each
Prices: 3 to 4 foot trees, \$3.95 each; 3 or more \$3.70 each

SHELLBARK HICKORY

Most popular of all Hickories. Prized for the fine quality and flavor of its nuts. Kernels are plump, sweet and very delicious. The trees are long-lived, vigorous growers and prolific bearers. Highly ornamental; makes a beautiful specimen tree. Two trees on your home grounds will provide an abundance of nuts for every home use and enough to market, bringing you a nice return on your investment. **Price:** 3 to 4 ft. trees, \$1.65 each; 2 for \$3.00, postpaid.

Chinese Chestnut

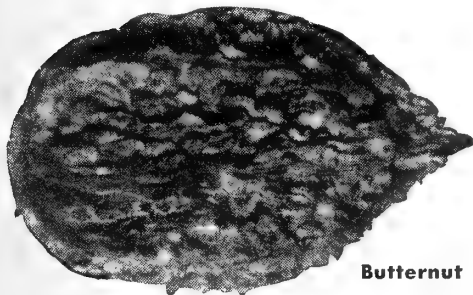

CHINESE CHESTNUT

A new strain of Chestnut, producing larger, better quality nuts. The trees we offer are blight-resistant and of only one quality—the **finest grown**. Not only do these trees produce large, delicious, full-flavored Chestnuts at an early age, but their beautiful rounded, spreading branches rapidly develop into a lovely shade tree to grace any home lawn. Have the thrill of roasting Chestnuts from your own tree over an open fire. Try them boiled or roasted—they're delicious beyond description! Plant two trees for best results. **Price:** Heavy 3 to 4 ft. trees, \$2.50 each; 3 for \$6.90, Postpaid.

BUTTERNUTS

This rapid growing, lofty, spreading ornamental tree is one of our finest native trees. While exceedingly hardy, it is valued for its tropical appearance and beautiful wood. Bears large crops of delicious, nutritious nuts, greatly prized for home uses and in good demand by bakers and confectioners. Bears young, and heavily. **Price:** Sturdy, well rooted, 4 to 5 foot Jumbo Trees, \$1.85 each; 3 for \$4.90, postpaid. If interested in more than three trees, write for special prices.

Butternut

Shellbark Hickory

HARDY PHLOX

These Phlox plants grow to a height of 12 to 24 inches the first season and will bloom for many weeks. Hardy Phlox are easy to grow and require very little care. They produce beautiful, large flower heads 5 to 8 inches long. We offer a variety of several colors: **Salmon Pink, Deep Crimson, Delicate Pink, Salmon Orange and Pure White.** Select, 2-year old blooming-size plants. **Price:** 35¢ each; 3 for \$1.00; 12 for \$3.75 postpaid.

Plant several now in a variety of colors for good blooms this year. **Colors:** Bronze, Pink, Red, White, Yellow. **Price:** 45¢ each; 3 for \$1.25; 12 for \$4.45, postpaid.

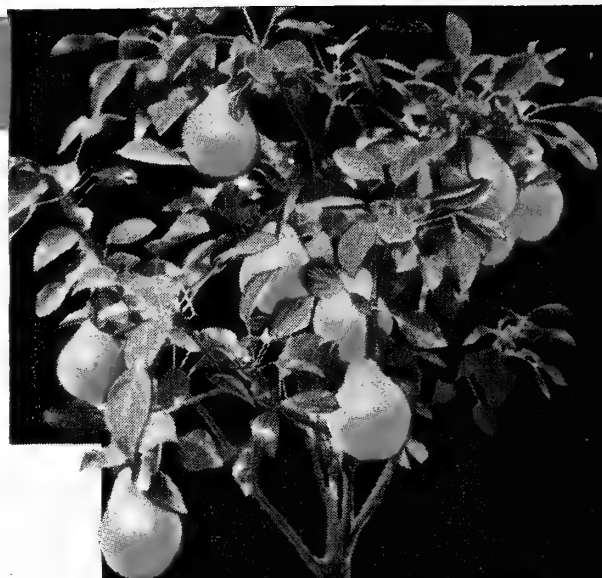

DWARF FRUIT TREES

Take Little Garden Space

• Large Size Fruit

Grow fruit on a city lot with Hanley's Dwarf Fruit Trees. These hardy, productive trees take very little garden space to produce an abundance of fine fruit. They grow less than 12 feet tall, smaller than some shrubs, making it easy to pick the fruit and maintain the tree. Often bear the first year after transplanting. These trees are very beautiful and decorative in the spring when in bloom. Fruit is the same as the varieties grown on normal size trees.

Dwarf Fruit Trees

DWARF PEAR TREES

Just imagine, you can have full sized pears next season on these beautiful small trees. Bright blooms in the spring make this one of the best flowering trees in your yard, as well as the most practical. At maturity the trees are 7 to 10 feet tall and will produce bushels of fruit each year.

Varieties

Bartlett Seckel

(See page 19 for descriptions)

Price: 3-4 ft., \$2.65 each; 3 or more trees, \$2.50 each, postpaid.

DWARF APPLE TREES

Huge apples on shrub-like trees. Easy to prune, spray or pick. Budded on famous Malling understock for top quality fruit and heavy roots. Plant wherever a large tree will help to decorate, or as a specimen plant.

Varieties

Cortland Red Delicious
Yellow Delicious

(See page 21 for variety descriptions.)

Price: 3-4 ft., \$2.65 each; 3 or more \$2.40 each, postpaid.

Sensational New Dwarf Cherries

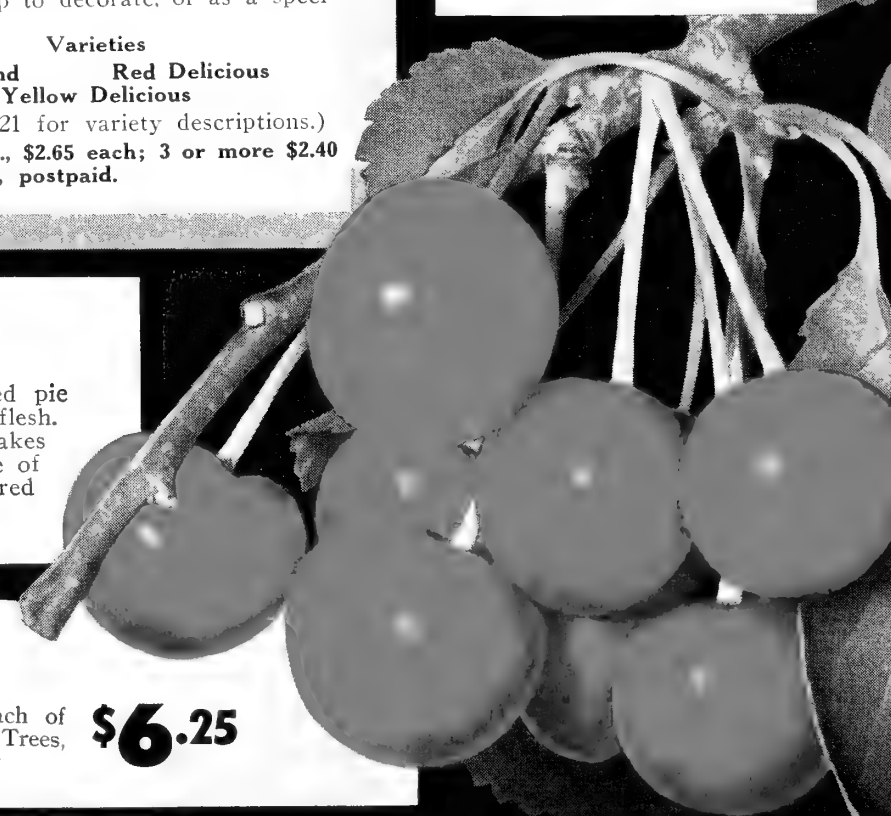

METEOR

Very strong, vigorous, upright grower with large leaves resistant to leaf spot. Color clear light red, skin thin. Stone small and free. Juicy and very flavorful.

NORTH STAR

Dark red, tender skinned pie cherry, with very juicy flesh. Stone small and free. Makes appetizing pies and sauce of magnificent rich cherry-red color.

New DWARF PEACH TREES

You can now own a shapely little 6 to 7 foot tree, that will be literally loaded with beautiful, soft pink blossoms in the spring, followed by full-sized peaches. Tree is hardy, symmetrical and long lived. Easy to care for and the luscious fruit can be picked from the tree without the use of a ladder. The tree has more color and the fruit is slightly larger than that from standard trees. Best of all, the tree will usually bear the next year after transplanting. Variety available: **ELBERTA** (see page 20 for description). Price: 3-4 ft. trees, \$3.15 each; 3 or more, \$2.95 each, postpaid.

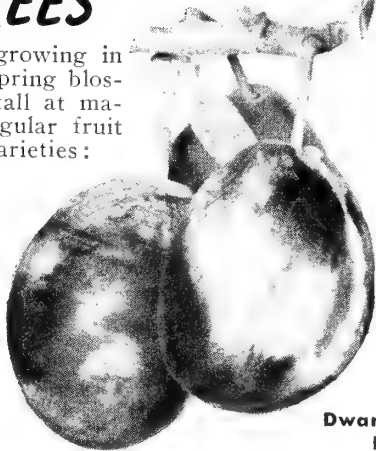

New DWARF PLUM TREES

You will enjoy this new strain of dwarf fruit growing in your garden. The tree is very ornamental from spring blossoming stage to harvesttime. Grows 8 to 9 feet tall at maturity; requires about one-third the space of regular fruit trees and is very hardy. We offer the following varieties:

BURBANK. Fruit is large as Plums produced on large size tree; bright reddish color, meaty and firm. Top quality. Excellent for eating fresh, canning, freezing and preserving. Price 3-4 ft. trees, \$3.15 each; 3 or more trees, \$2.95 each, postpaid.

Dwarf Burbank

Dwarf Stanley Prune

STANLEY PRUNE. These sturdy, vigorous growing trees bear large crops of top quality fruit. Usually bears the second year after transplanting. Fruit is very sweet and full-flavored. Self-pollenizing. Price: 3-4 ft. trees, \$3.15 each; 3 or more trees, \$2.95 each, postpaid.

Requires only a 20-foot space when fully grown. Fruit equals the same high quality of each individual variety. Price: Quick-Fruiting, 3 Year old Trees, \$2.95 each. 2 Trees for \$5.50, postpaid.

Hanley's Selected PLUM and PRUNE TREES

SUPERIOR: The Largest and the Best

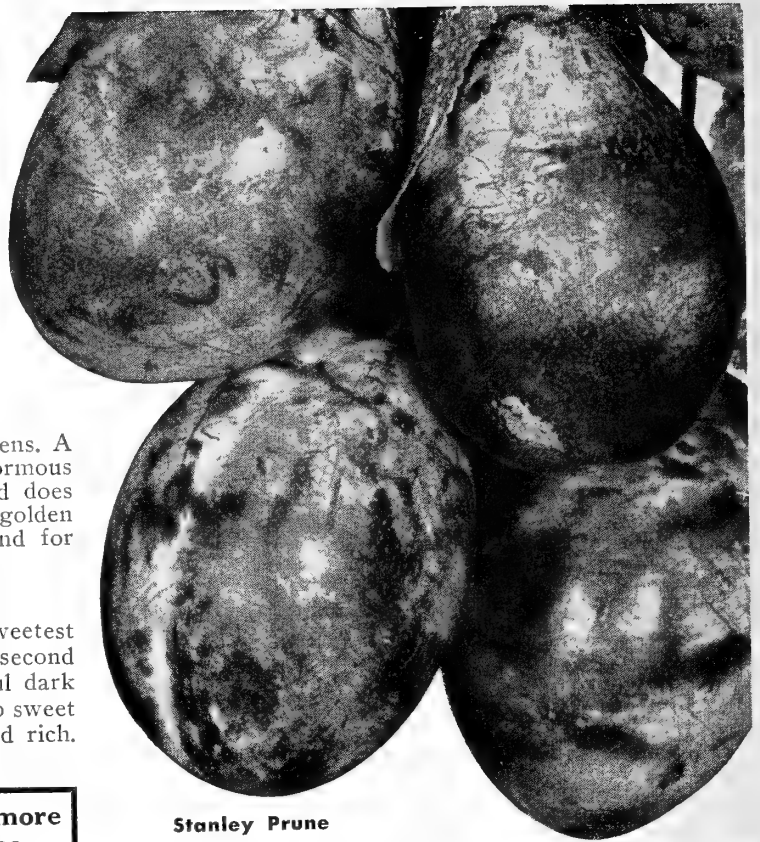

Bears young and heavily. Extra large, yellow fruit with fine, tender, deep red skin; delicious for eating from the tree or for jams, jellies, desserts and preserves. Tree is strong, fast growing and so decorative you can plant it in the front as well as the back yard. Plant two for best results. Ripens early August.

BLUE DAMSON: The Old Favorite

Grown for many years as a commercial crop and in home gardens. A large freestone type on a strong growing tree. Bears young; enormous cropper. A dependable bearer every year. Extremely hardy and does well all over the country. Medium size, dark blue fruit with golden flesh; richly flavored. Excellent for eating fresh, preserving and for market.

STANLEY PRUNE: Best Commercial Type

Best Commercial Type as well as good for home planting. Sweetest prune grown and bears the quickest. Often starts bearing the second year after transplanting and yields heavily every year. Beautiful dark blue skin, overspread with attractive bloom. Sweet golden flesh so sweet that it needs little sugar for canning. Juice is wine colored and rich. Freestone. Hardy grower anywhere. Self-pollenizing.

Beauty Plus Fruit — BUSH CHERRIES

Hansen
Bush
Cherry

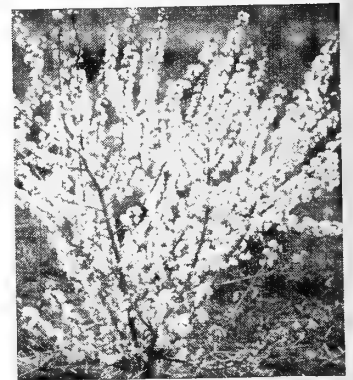

HANSON BUSH CHERRY

An ornamental shrub producing delicious fruit; easy to grow; perfectly hardy anywhere. The result of over thirty years' research and selection work by Prof. N. E. Hansen of South Dakota State College. A shrub which is very effective in any landscape planting and which bears delicious fruit of good size and excellent flavor. Starts to bear the year after planting and continues year after year. Makes superb jam, or clear, sparkling jelly. Don't neglect getting a few of them to add to your plantings. They always retain their dwarf stature. Heavy, 2-year size. Price 95¢ each; 3 for \$2.50, postpaid.

NEW OKA CHERRY

One of Prof. N. E. Hansen's newest and best Cherry-Plum introductions. Early bearing—very hardy—delicious flavor—prolific. Dwarf bush habit; bears from the ground up. Showy blooms followed by full crop of fruit. Fruit is about one inch in diameter, purplish black skin and flesh. Very sweet. Ripens late July. Delicious to eat, for jelly and jam. 2-Year, 3-4 bushes, \$1.50 each; 2 for \$2.50, postpaid.

Oka Cherry Blooms

NANKING CHERRY

A BEAUTIFUL AND ORNAMENTAL shrub for your lawn that bears great crops of delicious, fine cherries. Fruit is so abundant it takes but a few minutes to pick a quart or two right in your own yard. The delicious fresh fruit is excellent for making pies or superb, sparkling jelly. The attractive, shapely bushes grow from 6 to 7 feet tall, work well into a planting about the house, or a shrub border. Fragrant, blossom pink, but appear early and open to pure white. Our strong, sturdy bushes start bearing year after planted and second year branches are bending and literally covered with sparkling, bright red, superb cherries for pies, jelly and jam. Beauty plus delicious fruit. Extra Heavy Bearing. Size 3 to 4 feet Bushes, Each \$1.50, 2 for \$2.80, postpaid.

HANLEY'S PEAR TREES

Selected & Tested Varieties—Easy to Grow

Famous BARTLETT

Large, waxy yellow fruit with red blush. Very attractively shaped and uniform in size. The Bartlett is most widely known and popular of all the Pears. Bartlett sets the standard of perfection by which other Pears are judged. Flesh is superbly flavored, fine, white and juicy. Ripens in summer. Ideal for fresh desserts, canning, summer storage. A big money maker, the Bartlett Pear is truly the king of the Pears.

LINCOLN PEAR

An old favorite with a proven, outstanding quality. Recommended for sections east of the Rocky Mountains and from the Great Lakes to the Gulf. A beautiful large, golden yellow with a glowing red blush. Delicious fresh from the tree, wonderful canner, trees thrifty, long lived. Bear young. Ripens in late Summer.

GOLDEN DELICIOUS

SECKEL. One of the best quality, finest flavored sugar Pears. The most vigorous growing and heavy yielding. Outstanding for home gardens, as well as a commercial profit maker. Fruit is small, very sweet and delicious; excellent for preserves. Ripens in October. Blight-resistant.

HARDY QUINCE

ORANGE. A marvelous fruit for jellies and preserves. Large, golden yellow Quinces ripen in early September. Flesh is tender, juicy and has very delicious flavor; high in pectin. The tree is somewhat dwarf growing, seldom over 8 feet tall, which makes it popular with those who have limited yard space. Trees bear young, and abundantly every year. A profitable tree for commercial crops or delightful yard tree. **Price:** 4-5 ft. trees, \$2.35 each; 10 or more, \$2.25 each, postpaid.

HUNTER SURE CROP NECTARINE

A deliciously flavored fruit with the smooth skin and size of a Plum. Flesh is richly flavored, juicy and melting. Highly prized as a dessert fruit. Much superior to the Peach as a dryer, and makes excellent preserves. Can be grown wherever Peaches grow. Bears early and abundantly. Ripens about the same time as Elberta Peach. Plant two or more trees for proper pollination. **Price:** 4-5 ft. trees, \$1.85 each; 10 or more, \$1.75 each, postpaid.

SUPERB APRICOT

Rapidly gaining first place among all Apricot varieties. Fruit is delicious for eating right from the tree or preserved. Ripens between Cherries and Peaches. Tree is very hardy, clear into Canada; will stand prolonged hot weather too. Plant two or more trees for proper pollination. **Price:** 4-5 ft., 2-year old trees, \$2.00 each; 10 or more, \$1.84 each, postpaid.

MOORPARK APRICOT

One of the largest and finest quality Apricots. Fruit is large, deep yellow with red cheek. Flesh is juicy and sweet; valued as a fresh fruit and for canning and drying. Ripens mid-August. Grows about the same as Peaches. **Price:** 4-5 ft., 2-year old trees, 1 to 9 trees, \$1.80 each; 10 or more trees, \$1.70 each, postpaid.

QUICK BEARING PEACHES

Golden Jubilee

Shippers Late Red

Bears about 17 days after Elberta. Skin yellow, with an attractive red coloring. We consider this one of the most perfect Peaches if you are looking for one of the largest, richest, most beautiful, late, yellow, freestone Peaches. It is round and uniformly shaped. Flesh is orange red around the small pit. The rich red color is retained in the canned fruit and juice. You will want to can this variety exclusively for your fancy table use. Perfect Freestone. Don't fail to plant SHIPPERS LATE RED this year. It is a Peach you will be proud of and want to show your friends and neighbors.

Golden Jubilee

The distinguished Peach. Fine flavor; yellow freestone; a sure cropper. Resists excessive cold, severe Winters and late, heavy Frosts. Large in size. Ripens from two to three weeks ahead of Elberta. Considered to be the best early ripening variety. Attractive color and fine texture. Profitable for Market; excellent for Home. What more could you expect in any kind of fruit? One of our favorites.

Elberta

Considered the money maker. Leader of all Peaches. The greatest commercial variety on the Market. 50 per cent of the Peaches planted are Elberta. This Peach is large, yellow, with red cheek; juicy and highly flavored; flesh yellow; freestone. Perhaps the most well known Peach in America. Elberta ripens here about August 15th. North of Chicago about 20 days later; south of Memphis, Tenn., about 20 days earlier. By this you should be able to figure when all varieties offered ripen in your section.

Polly

A white peach that has been able to stand 15 to 20 below zero. It is a perfect white freestone peach. We do not know of any one variety that has the luscious flavor that Polly has. Is very juicy, but quite firm. Ripens a few days before Elberta. Polly originated in Iowa, which makes it suitable for the South or extreme North.

Hale Haven

In our opinion, it is the finest and hardiest Peach grown. This huge, delicious, hardy Peach can be successfully grown as far North as any variety known to us. This marvelous Peach will thrive and bear fine crops of fruit when such varieties as Elberta, J. H. Hale will often be killed by cold Winters and late frosts. Fruit very large and uniform in size and shape. Color rich Golden Yellow, with a sparkling red cheek. A perfect freestone. Has a rich, spicy flavor which is, in our opinion, unsurpassed. Hale Haven ripens a few days ahead of Elberta. We consider the Hale Haven the finest Peach grown. A Peach which simply melts in your mouth.

HOME PEACH ORCHARD

Selected **APPLE TREES**

POPULAR VARIETIES, BEST PRICES

LODI (Summer)

A much improved strain of Yellow Transparent. Attractive, vivid yellow Apple. Flesh is white, firm, tender and juicy, with a sub-acid flavor, making it a good eating apple as well as a kitchen favorite. The tree is blight resistant and perfectly hardy everywhere. We consider it the outstanding Summer Apple.

ANOKA (Fall)

ANOKA—A wonderful early Apple. Trees bear while extremely young. No long waiting for fruit when you plant Anoka. A grand variety for old folks. Originated in South Dakota. Originator claims trees often bear fruit the second year. Hardy enough for extreme North. A fine eating Apple; makes delicious pies and a fine flavored sauce. Trees dwarfish in habit and very reproductive. A grand variety for folks with small yards as they may be planted 12 feet apart. Old folks can plant Anoka Apple Trees and often see them bear for several years.

RED ROME BEAUTY (Fall)

An improvement of one of the all-time great commercial varieties. Blooms later than most apples, which gives it a big advantage in escaping spring frosts and cropping every year. Beautiful uniform, bright red fruit; excellent keeping qualities for eating or cooking all winter. Tree is hardy and vigorous; bears very young.

DOUBLE RED DELICIOUS (Winter)

This is the improved type of the common Delicious. The Double-Red naturally colors up much more and much sooner than the old Delicious. The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sort of sweet flavor with a slight acid taste. Excellent for eating and one of the foremost commercial varieties everywhere; also one of the most popular varieties for fruit-stand purposes. Heavy crops every year. Outsell all other varieties. Makes a very good winter apply. A favorite from coast to coast.

YELLOW DELICIOUS (Winter)

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, with flesh that is very firm, crisp and juicy. Splendid shipper. Popular and profitable everywhere. The trees we offer are all from parent trees selected for extra quality, size and vigor. Bears young and is very productive. The large, golden fruits are considered the finest of all yellow apples and are very much in demand.

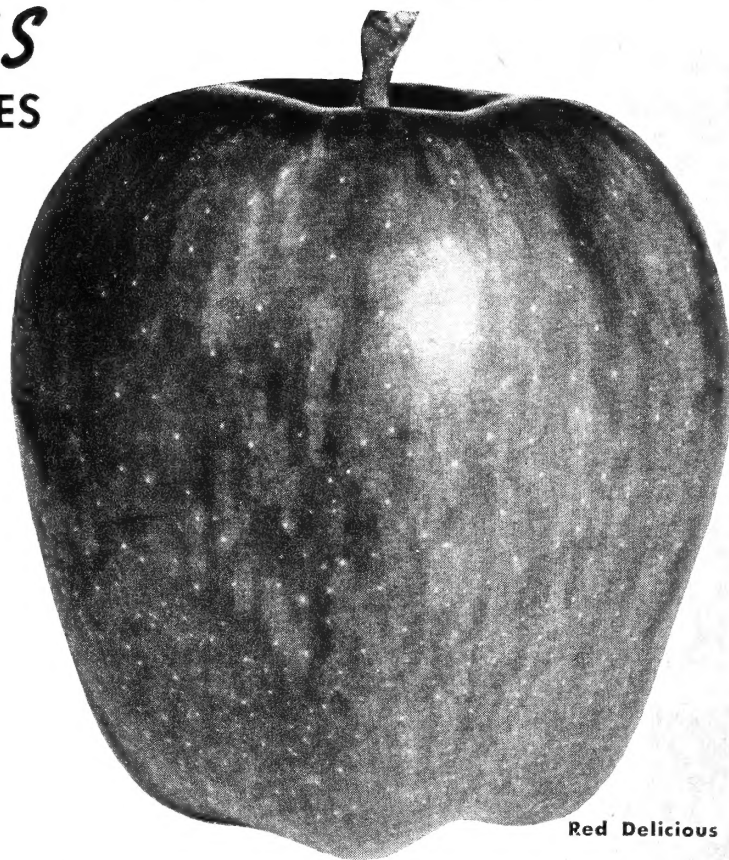

SOLID-RED JONATHAN (Winter)

Is a solid red type of the Jonathan variety. It colors up very early in the fall and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The tree is medium in size, the fruit is firm, crisp and tender. Long lived, productive, and a very early bearer. Highly valued for table, cooking, and market. A wonderful winter apple.

SOLID-RED WINESAP (Winter)

An improved strain of the old Stayman's Winesap. This variety is noted for its wonderful keeping qualities. Fruit is large, uniform and a bright cherry red in color. Flesh is crisp, juicy and has an excellent flavor—slightly sub-acid. Trees are thrifty and hardy; produces large crops year after year. Very popular for eating or cooking purposes.

We cannot ship fruit trees into the following states: California, Idaho, Oregon, Utah, Washington, Wyoming, Arizona, Montana, Colorado.

Sweet CHERRIES

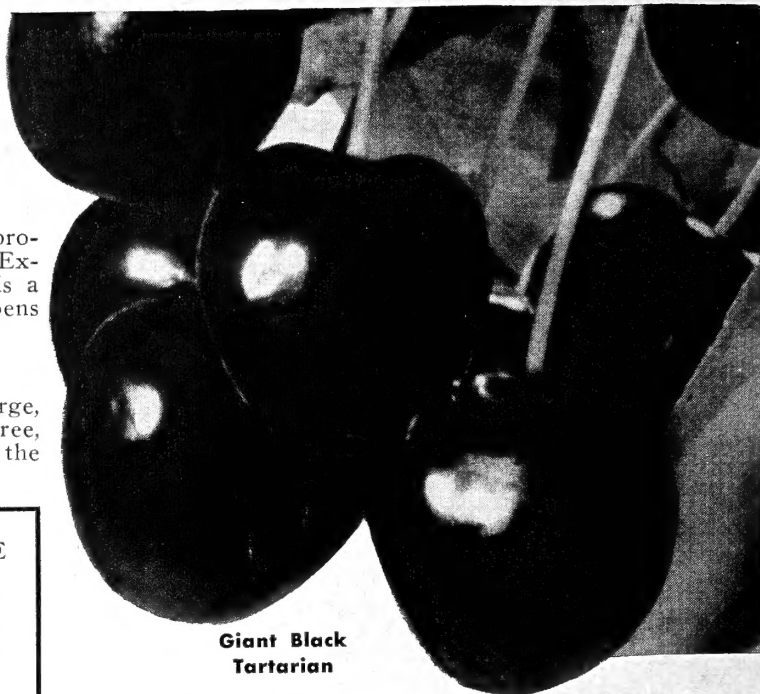

Plant Hanley's selected Virus Free cherry trees, for dependable, quality production for the LIFE of the tree.

GIANT BLACK TARTARIAN

The best of the black sweets. It is also the most dependable, producing glossy, blackish purple, delicious fruit year after year. Excellent variety to eat fresh from the tree, for canning and is a superior freezer. Bears young and heavily, very large fruit. Ripens in late June.

BING

An old favorite returns. Still one of the best dark reds; for large, dependable crops of cherries, good for all purposes. Hardy tree, will grow and produce most anywhere. Brings top prices on the market because of its color and large size.

DOLGO CRAB

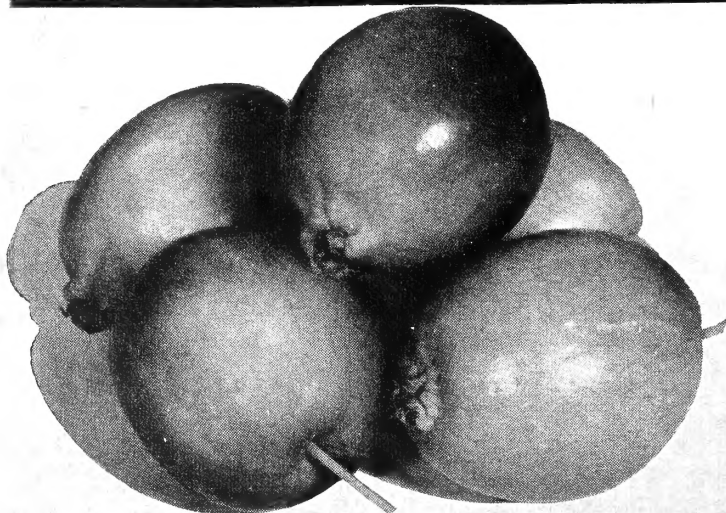

Distinctive, Ornamental Fruit Tree

The aristocrat of the Crab apple family. A fruit tree attractive enough to plant on your lawn! In early spring the tree is covered with a profusion of dainty pink blossoms followed by brilliant crimson fruit. The fruit is full of juice, jells easily and makes a rich ruby-red jelly, beautifully colored and excellently flavored. Tree is dwarf in size but grows quickly. Bears young, hardy and very productive. Often bears second year after planting. Plant a tree now and enjoy its beauty in Spring and its delicious fruit in Fall.
